

# Configuration d'un compte e-mail avec Sendgrid

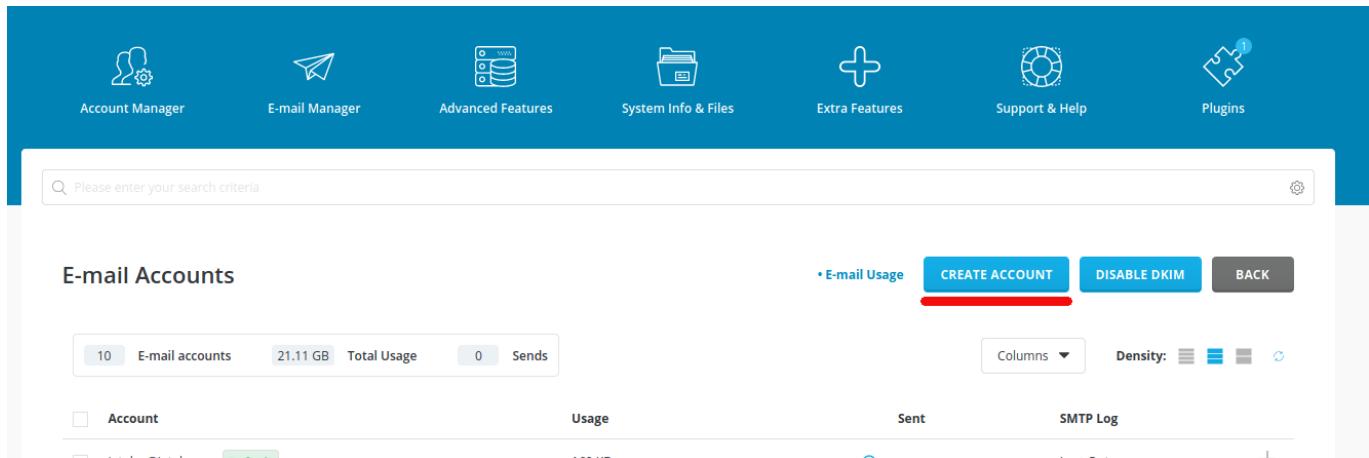

Ce document explique la création d'un compte e-mail dans DirectAdmin et la création d'une clé d'envois chez Sendgrid.

## Création d'un compte e-mail dans DirectAdmin

Connectez-vous à votre panel administrateur DirectAdmin (<https://www.MON-DOMAINE.XXX:2222>)

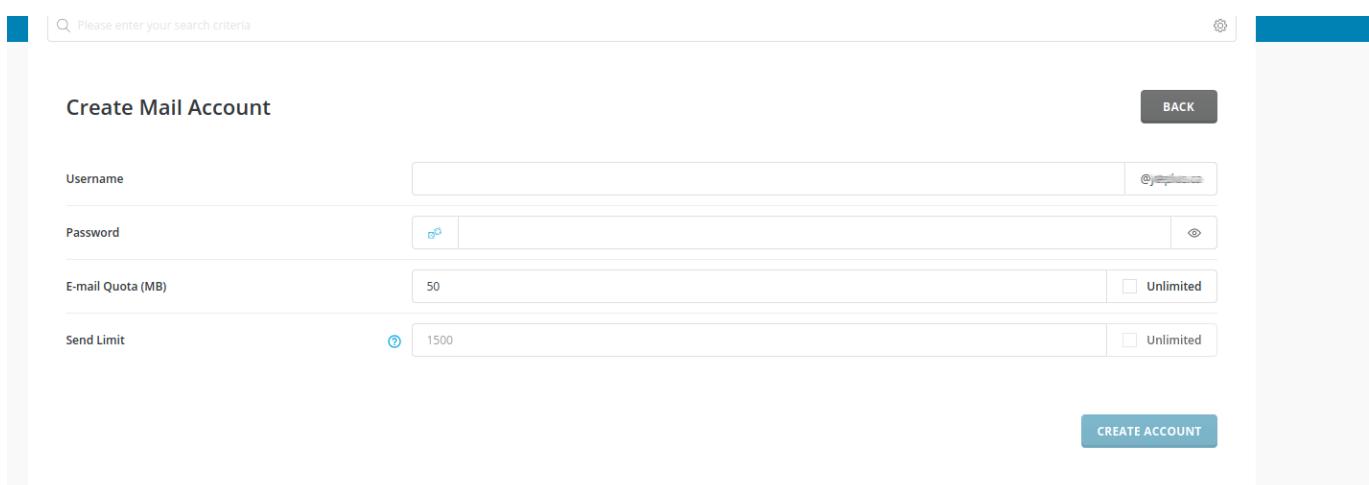

Dans le menu du haut, sélectionner **E-mail Manager > E-mail Accounts** (fr: Gestion E-Mail > Comptes E-mail)

Ensuite, pour faire la création d'un nouveau compte, cliquez sur Create Account (fr: Creer un compte)

The screenshot shows the DirectAdmin control panel with a blue header bar containing various links: Account Manager, E-mail Manager, Advanced Features, System Info & Files, Extra Features, Support & Help, and Plugins. Below the header is a search bar with the placeholder 'Please enter your search criteria'. The main content area is titled 'E-mail Accounts' and shows a summary: 10 E-mail accounts, 21.11 GB Total Usage, and 0 Sends. There are buttons for 'E-mail Usage', 'CREATE ACCOUNT' (which is highlighted with a red box), 'DISABLE DKIM', and 'BACK'. Below this, there is a table with columns: Account, Usage, Sent, and SMTP Log. The table lists an account named 'louis@louis.local'. At the bottom of the page are 'Columns' and 'Density' dropdown menus.

Vous devez ensuite remplir le formulaire suivant pour faire la création d'un nouveau compte e-mail

The screenshot shows the 'Create Mail Account' form. It has fields for 'Username' (louis), 'Password' (hidden), 'E-mail Quota (MB)' (50), and 'Send Limit' (1500). There are checkboxes for 'Unlimited' next to the quota and send limit fields. At the bottom right is a 'CREATE ACCOUNT' button, which is highlighted with a red box.
